

Model No.:LCF-23MB (38x38mm)

- 1, Management center obtains to the scene image immediate access; or instantly upload local images to monitoring centers.
- 2, Industrial design, manufacturing; it is anti-seismic, anti-electromagnetic interference; stable and reliable.
- 3, Standard RS232 interface, default baud rate 38400,support a variety of image formats and image quality. Simple PC application.
- 4, JPEG compression, image transmission fast.

Taking Images	
Image Sensor	1/4 CMOS
Pixels	310k
White Balance	Automatic
Exposure	Automatic
Auto Gain Control	Automatic
Angle of view	diagonal 90degree or 120 degree
Focal length	F3.6/2.5mm
Image Compression	JPEG,about 25k Byte@VGA,10k Byte@CIF
Image Resolution	640x480,320x240,160x120
Image Resolution	
Interface	Industrial RS232
Transmission baud rate	9600bps~115200 bps
Power Supply	DC5V+/-5%
Normal current	About 80mA
Standby current	About 40mA
Working temperature	-15degree~70degree
Working humidity	20~80%RH
Packaging	box
Other	Anti-seismic, anti-electromagnetic interference
